Wanted

For the moment I have over 2500 chips in my collection. That's really a lot but there are many chips and CPU's I am still missing in my collection. I am searching for all chips you can't find in my museum, also missing specs.
Generally I am always interested on Engineering Samples and all kind of old Intel chips with C prefix as C4004, C4040, C3101.....
Below a list of the **most wanted CPU's and chips** for my collection.

Intel MCS-40 family

4101, 4265(got it in p), 4316, 4801 with any prefix but most wanted "C" prefix

early Intel peripherals, RAM & ROM

C4002-2 white ceramic with grey traces, C4003 white ceramic with grey traces,
1301 with grey traces, 1601(got it in grey traces), and 1601A white, and white with grey traces,
C1702A with grey traces

early Intel processors

C3002, C4004 G, C4004 with ground strap, C4004 with ground strap and #5 marking, C4004 with grey traces
Intel 8008 and 8080 without "C" prefix, M8008, MC8080A, C8080-B (round white ceramic package)
C8080, C8080-8,
any 8085 with "C" prefix, any 8086 with "C" prefix, but most wanted is the C8086-4

other Intel CPU's and chips

7110(got it :-)), D80C187-12, C8087H-3, C8087-4, C80286-8, any A80501-60/66 Sample, A80501-60 SX842, PCPU5V60 SZ949, A80501-60 SX926, Pentium Overdrive PODPMT60X150 SL24V, any PII Sample,

Trade

Meanwhile I have a lot of chips and CPU's double in my collection and so they are for trade.
I prefer to trade them against other chips I don't have in my collection, but if you are interested on one of these chips you are always welcome to make an offer.
NOTE: I will not answer any mails with "how much is this chip.....", here you will not request a quote of any trade chips! If you something want to have, you have to make an offer!!
